

# Cover Crop Breeding Field Walk – Join us!

The Cover Crop Breeding Network breeds fall-sown cover crops for traits like fall emergence, winter survival, spring vigor, high biomass, hard seed, and non-shattering pods

Join us to walk the trial fields, talk about what we're seeing (and not seeing), hear about past years' results, and learn about CCB lines approaching commercialization.

- Advanced line trials - Crimson clover, hairy vetch, winter pea, and winter canola
- Planting date trials - Cereal rye and winter pea
- Breeding nurseries - Cereal rye and winter pea (*across the road & optional!*)

**Tuesday, April 23 – 3-5pm**  
**Wednesday, May 1 – Noon-2pm**

Homer C. Thompson Vegetable Research Farm  
133 Fall Creek Rd. Freeville, NY 13038  
*Follow signs at the intersection of Fall Creek & Ed Hill Rds.*

Hosted by Ginny Moore, Asst. Professor, Plant Breeding & Genetics, Cornell, and Solveig Hanson, CCB Network Coordinator.  
**We'll meet rain or shine, and we'll have beverages and snacks!**

RSVP (optional!) and find more information about the Cover Crop Breeding Network at [covercropbreeding.com](http://covercropbreeding.com).  
If you'd like to receive a calendar invitation for one or both dates, please email Solveig at [ccbn@cornell.edu](mailto:ccbn@cornell.edu).
